# Street Pro Slab Saws

**Multiquip's Street Pro Series of walk-behind saws is designed for strength, durability and performance.**

Whether cutting concrete or asphalt, the reinforced steel box frame design adds strength necessary to reduce vibrations while sawing. Minimizing vibrations enhances the performance of the blade and extends the life of the saw. Designed for easy maintenance, the Street Pro Series utilizes standardized hardware and provides easy access to components. The saws are compact and easy to operate, yet demonstrate the cutting performance usually expected from larger, more expensive units.

- **Super-rigid box frame** ensures straight cuts while resisting warping and vibration — prolongs saw life; extends blade life
- **Industrial Blade Shaft Assembly**
- **Comfortable grip handles**
- **Locking ACME thread Raise/Lower**
- **Honda engines** with Cyclone Air Filtration standard
- **Hinged front, lift-up blade guard** is designed to provide easy blade replacement
- **Saw position guide** helps ensure straight cuts
- **Water system** provides an optimum flow and volume of water to the blade; uses standard hardware materials; provides easy replacement and facilitates routine maintenance practices

## Street Pro SP1

**Compact, rugged and easy to handle**, the SP 1 is the best choice for small to medium cutting jobs. This economical saw can easily accomplish a variety of cutting applications, and serves as the perfect model for rental applications. SP 1 models are offered with either a 11 HP\* gasoline engine or a 5 HP\* electric motor. The gas version comes equipped with an 18" Blade Guard that easily operates 14" to 18" diamond blades. The electric model comes standard with a 16" Blade Guard. This hardy saw is equipped with a retractable cutting guide, locking ACME thread raise/lower system, industrial blade shaft assembly, and reinforced box steel frame.

*Always wear approved safety equipment and clothing when operating this machine.*

# Exceptional Saws for Rental Operations

## Street Pro SP2

An exceptional performing saw for its size, the SP 2 is built to cover a wide range of cutting applications. This saw comes with a standard 20" Blade Guard to permit a 7½" depth of cut. Power options are either a 11 HP\* Manual Start, or 18.1 HP\* V-Twin electric start Honda gasoline engine. The strong box type frame maintains its integrity providing smooth travel, superior diamond blade life and cutting performance. Standard features include: an adjustable height handle bar, lifting bail, removable hinged front blade guard, rugged front pointer, industrial blade shaft assembly, and 5 gallon built in water tank for dust control while cutting dry. On the Self-Propelled models, a hydrostatic transmission controls forward/reverse propulsion; plus, a free-wheel handle disengages the drive system for easy site travel.

*Always wear approved safety equipment and clothing when operating this machine.*

# Street Pro Slab Saws – Specifications

Model	Power*	Weight lbs. (kg)	Blade Capacity in. (mm)	Cutting Depth in. (mm)	Front Wheels Bearing Mounted	Rear Wheels Bearing Mounted
<b>SP1 Series Push</b>						
SP113H18	11.0 HP (9.7 kW) Honda Cyclone	270 (122.7)	18 (457)	6.5 (165)	4" Dia. x 2" Wide (101mm x 50mm)	8" Dia. x 2" Wide (203mm x 50mm)
