EZ Grout Mud Hog® Mixers

The most durable, best designed mixer on the market!

Triple Use: Mortar, Grout, and Concrete

MH-20 FEATURES:

- Large capacity — 6 to 7 bags or 20 cu. ft. (.57 cu. m)
- Adjustable height — Labor loads below waist
- No wheels to work around or maintain; deters theft
- Will mix up to 3/4" (1.91 cm) concrete aggregate
- Portability — Fork pockets accessible on all sides
- Empty weight 2,310 lbs. (1047.8 kg)
- Compacts to fit in standard 8 ft. (2.44 m) truck bed
- Electric start, hydraulic drive, hydraulic dump
- Reversible mixing paddles prevent clogging
- Vertical paddle design cuts through material
- Five-year warranty on mixing drum
- Six mixing blades to decrease batch time
- New and improved rubber blades come with a One-year warranty
- Easy cleaning — Laborer stands upright to clean
- Also ideal for stucco, concrete, or precast batches
- Ergonomic design lessens labor fatigue and backache
- Optional diesel engine available

The 20 C.F. Mud Hog

One year warranty on paddle rubbers; Five year warranty on mixing drum Ask for details

Patent # 7,165,877

Optional solid grate eliminates dust

Use with bag mixes or Silo System

Dumps directly into Grout Hog

Load below waist

Dump into wheel barrow

Clean up is easy

MH-12 FEATURES:

- 3 to 4 bag capacity or 12 cu. ft. (.34 cu. m)
- Will mix up to 3/4" (1.91 cm) concrete aggregate
- Loads below waist and still dumps high
- 13 hp Honda engine with electric start
- Hydraulic dump and drive
- Small and compact — hauls in any standard pickup
- The highest quality, longest lasting mixer on the market
- New and improved rubber blades come with one-year warranty
- Five-year warranty on mixing drum
- Fork pockets accessible from all sides
- Empty weight 1,440 lb. (653.17 kg)
- Reversible mixing paddles prevent clogging
- Vertical mixing paddles prevent splashing; cut through material
- Ergonomic design lessens labor fatigue and backaches

One year warranty on paddle rubbers; Five year warranty on mixing drum Ask for details

The 12 C.F. Mud Hog

Optional axle kit for towing

The small Mud Hog® that's ideal for small jobs!

MH-9 FEATURES:

- 2 to 3 bag capacity or 9 cu. ft. (.25 cu. m)
- Hydraulic dump and drive
- 8 hp Honda engine
- Will mix up to 3/4" (1.91 cm) aggregate
- Comes standard with tow package, highway tires, and torsion axle for smoother suspension
- Tow package designed to pull from the side so that wheels are out of the way of wheelbarrow or the forks on a forklift
- Easier to back into sand pile
- Empty weight 1,325 lbs. (601.01 kg)
- Loads below waist level and dumps high to lessen backaches
- Reversible mixing paddles prevent clogging
- Optional brake and light kit

The 9 C.F. Mud Hog

The only mixer on the market with a five-year warranty on mixing drum and a one-year warranty on paddle rubbers

Loads below waist level

Dumps high into wheel barrow

EZ Grout Mobile Mud Hog®

The MMH-14 Hydraulic Powered Mobile Mud Hog

Very easy to load. Move the mixer to where the materials are.

After mixing, unload right where it is needed. No unnecessary steps.

The Mobile Mud Hog® thoroughly and quickly mixes materials and delivers those materials directly to the destination.

MMH-14 FEATURES:

- Empty weight 1,043 lbs. (473.1 kg)
- Can be used with a skid-steer loader or fork lift
- 1/2 cu. yd. maximum capacity (.38 cu. m) per load
- Hooks to auxiliary hydraulics on your loader or forklift
- Mixes and delivers up to 3/4" (1.91 cm) aggregate
- Unloads 1/2 cu. yd. (.38 cu. m) in one minute
- One-year warranty on rubber paddles
- Five-year warranty on mixing drum

EZ Grout High Rise Mud Hog®

*Need to mix mortar
on upper floors?*

The only mixer on the market with a five-year warranty on mixing drum and a one-year warranty on paddle rubbers

HIGH RISE MUD HOG FEATURES:

- **3 to 4 bag capacity** or 12 cu. ft. (.34 cu.m)
- **Mobile mixing station** doesn't require forklift to move
- **Empty weight: 1,540 lbs.** (698.53 kg)
- **Lower jacks** to move to precise location to mix mortar as needed, where needed
- **Eliminates laborers from transporting batches of mortar;** saves time and labor costs
- **Easily transported through elevators or bucket hoist**
- **Will mix a full 15 bags** of 80 lb. (36.29 kg) preblended material
- **Ergonomic design** allows loading below waist while dumping high, reducing back strain
- **Reversible mixing paddles** prevents clogging; paddle angle reduces splashing
- **Heavy duty drum construction** can withstand jobsite abuse
- **Available in electric and gas;** can be fitted with exhaust scrubber for emissions
- **30-day customer satisfaction money-back guarantee**

EZ Grout Hog Leg® Wall Brace System

The Hog Leg® is a safe, fully tested, and more efficient way to brace masonry walls for today's masons.

HL400 FEATURES:

- Works on any type block
- Adjusts to any height wall
- One-to-two-man assembly
- **Lightweight** — heaviest piece weighs only 38 lbs. (17.24 kg)
- **Kicker extension** can be used for extra stability
- **Makes your jobsite safer and more productive**
- **Fastens through the head joints** (no cutting of block required or anchor bolts to purchase)
- **Includes convenient lockable storage rack** to store all materials; fits in 8 ft. (2.438 m) bed; avoids theft

**HL400 Hog Leg
Brace Kit**

**Fully
Tested!**

Installs easily through head joint

Same brackets attach at anchor location

Hog Leg® without kicker

Hog Leg® with kicker

HL400 Hog Leg Kit and (2) HL14 Ext. Kit					
17'-1" to 26'-11"	21'-4" to 33'-8"	1	2	32	400 ft.
23'-6" to 31'-9"	29'-4" to 39'-9"	2	2	32	400 ft.

"Now that we have the Hog Leg braces, we are more confident and feel more secure that we will be able to bid and build higher work. With its ease of installation, I was able to train my crews in about 15 minutes on how to use it and also train the foreman on the instruction manual in about 30 minutes."

**Brian Tibbetts,
Illinois Masonry
Corporation
Lake Zurich, Illinois**

No more heavy, time consuming wall braces!

EZ Grout Uphill Grout Hog®

With new extended auger tube

Patent #6,112,955
#6,206,249, #RE37,911E
and #6,499,718
Other Patents Pending

Features of the original and more...

- Makes grouting from the scaffold side of the wall easier.
- Will handle up to 3/4" (1.91 cm) aggregate with virtually no plugging.
- Removable auger and hopper tilt allows for 15-minute clean up.
- Extended auger tube saves several feet of boom extension on your forklift.
- Decreased head height allows pouring up close to bar joist on interior walls.
- Reduces the possibility of workers walking under the machine when elevated.
- Unique swivel base allows grouting from all angles while eliminating extra forklift moves.

Shown here with optional gas power and crane bail.

Extended auger tube saves several feet of boom extension

Hopper tilt allows for easy cleanup

"If anything, you undersold the capability of the Grout Hog."

Scott L. Stephens,
President
Phoenix
Associates, Inc.
Parkersburg, West
Virginia

"The first time the Grout Hog was used, we poured three yards of concrete in about 20 minutes with only one man at the end of the hose.

In a period of a day we ordered two more Grout Hogs to be able to have one on every job."

R.C. Ramsey, President
WP Howle
Masonry Contractor Inc.
Wichita Falls, Texas

The best just got better!

Hydraulic Powered Grout Hog[®]

GH-75 FEATURES:

- Hooks to auxiliary hydraulics of forklift
- Empty weight: 1,095 lbs. (497 kg)
- 3/4 cu. yd. (.57 cu. m) maximum capacity per load
- Unique swivel-base system allows workers to reach 17 ft. (5.2 m) of wall quickly without moving forklift
- 8' (2.44 m) reinforced, collapsible dispensing hose standard; 4' (1.22 m) hose also available
- Unloads 3/4 cu. yd. (.57 cu. m) in approx. 2 1/2 minutes if ran continuously
- Also delivers sand and dry materials

Patent #6,112,955
#6,206,249, #RE37,911E,
#6,499,718 and #7,152,762

Use with Spec Mix[®] Silo System

Grout using only two people

Gas powered with crane ball

Removable auger for easy 15 min cleanup

Gas Powered Grout Hog[®] with Crane Ball

*Ergonomic Design —
labor doesn't lift or
support weight of grout*

GPHC-75 FEATURES:

- Built for use with crane or forklift
- 3/4 cu. yd. (.57 cu. m) capacity
- Custom fabrication of 1 yd. (.76 cu. m) to 3 yd. (2.28 cu. m) machines available
- Empty weight: 1,400 lbs. (635.03 kg)
- 10 gpm, 1350 psi hydraulic pump and motor drive
- Honda 13 hp engine
- Remote control operation (forward and reverse)
- Wireless remote optional (but not recommended)
- Unloads 3/4 yard in 2 1/2 minutes
- Can be operated with one man on scaffold and one crane operator
- Ideal for steps, interior walls, high rise construction, piers, columns, and small concrete pours

No buckets, no pumps, no headaches!

Hog Chute™

Great for self-consolidating concrete!

New!

HOG CHUTE FEATURES:

- Precision placement and flow control
- Empty weight: 650 lbs. (294.84 kg)
- 3/4 cu. yd. (.57 cu. m) standard capacity
- Custom sizes available
- 8' (2.44 m) reinforced, collapsible dispensing hose standard; 4' (1.22 m) hose also available
- Standard fork pockets and crane bail
- Reduces segregation of concrete

Hog Slopper™

Hog Slopper™ Metering System premeasures and delivers into Mug Hog™

CONSISTENT MORTAR IMPROVES PRODUCTIVITY

- Premeasures the amount of sand to put in mortar mix
- Premeasures the amount of peagravel and sand if you are mixing grout
- Eliminates guessing based on shovel size or miscounts
- Delivers 69 shovels in seconds — enough sand for three bags of mortar or cement
- Insures consistency of workable mortar for improved production
- Helps avoid back strain
- Improves batch time — while mortar is mixing, Hog Slopper™ is filled and ready for next batch
- Keeps sand pile away from mixer
- Adjustable from 6 3/4 cu. ft. (.19 cu. m) to 9 cu. ft (.25 cu. m) of sand
- Available with fork pockets or universal skid steer mount

Eliminates guessing based on shovel size or miscounts

Save thousands on labor by no shoveling

Booger Hog®

Masonry Wall Scrubber

- Wall cleanup is quicker and easier
 - Weighs under 20 lbs.(9.07 kg)
 - Save money on decreased punch out time with less labor
 - Booger Hog® can do the work of 4 to 5 men
- Power**..... 5.5A Milwaukee Drill (Although other drills will fit, we chose the Milwaukee for dependability and durability)
 - Weight**..... 13.5 lb. (6.12 kg) w/ Disc
 - Drive Shaft** 5/16" (.79 cm) diameter Steel
 - Disc Guard** Tight fitting 7-3/4" (19.69 cm) aluminum guard for a 7" (17.78 cm) disc allows better cleaning around corners and door frames
 - Durability**..... Pivot on head with self-lubricating bronze bushings and a felt seal; swivel has a grease fitting for lubrication and rubber lip seal
 - Service**..... (2) Grease Fittings; Drill Motor easily replaced if required. Motor brushes on drill are accessible without disassembly

Revolutionize your jobsite today!

Poly Hog Trough®

- Strength through flexibility and memory
- Made of virgin polyethylene
- Lightweight, only 60 lbs. (27.22 kg);
weight with wheels — 82 lbs. (37.19 kg);
weight with crane options — 94 lbs. (42.64 kg)
- Easy to clean; nonstick surface
- Will not crack in cold weather
- Steel legs for use without pallets
- 10 cu. ft (.28 cu. m) capacity
- Overall dimensions:
26" x 54-1/2" x 24"
(66.04 cm x 138.43 cm x 60.96 cm)

Shown here with optional wheels

The only tub on the market with a one-year warranty

Shown here with crane options

Large 10 cu. ft. capacity

Steel legs, no pallets needed

Hog Cart™

Are you tired of broken wheels on your mudpan?

- Eliminates the need for wheels on your mudpan
- No more broken wheels on your mud pans
- Forklift pockets
- 3,000 lb. (1,361 kg) capacity
- Use to move block or mud pan easily
- Safety brakes
- Constructed with durable, high quality wheels
- Built to withstand the rugged jobsite
- Corner pockets allow 2" x 4" (5.08 cm x 10.16 cm) handles to be used
- Dimensions: 60-1/2" x 24-1/2" x 20"
(153.67 cm x 62.23 cm x 50.80 cm)

Efficiency goes one step further!

Meet Damian Lang

Since its inception in 1998, EZ Grout Corporation has rapidly become a leading equipment manufacturer to the masonry and concrete construction markets.

With roots firmly fixed in the masonry industry, owner Damian Lang — an innovative mason contractor based in southeastern Ohio — started EZ Grout to improve efficiency on the masonry jobsite. Prior to the onset of EZ Grout Corporation, he started Lang Masonry Contractors over 25 years ago. For years, Damian had long recognized the need for a better way to fill masonry block (more commonly known as wall grouting). Grout bucketing is labor intensive and physically exhausting.

After several prototype models and extensive field-testing, Lang introduced the patented Grout Hog® Grout Delivery System in early 1999. Later, along with his team of masonry professionals, co-workers, and industry contacts, he developed easier to use mortar mixers, bracing systems and other labor-saving equipment for the masonry and fencing jobsites.

Damian Lang
President/Owner of EZ Grout Corporation

Due to the considerable labor savings and high quality standards behind each product, EZ Grout Corporation continues to gain thousands of customers who use their equipment everyday on jobsites across the country. EZ Grout now has customers in every state in the U.S. and several foreign countries.

Damian Lang stands behind each innovation and remains committed to revolutionizing the industry for the betterment of the masons and contractors throughout the nation and abroad.
