Contents

1. Testing Tool Kit
2. Pump
3. Summary

1. Testing Tool Kit

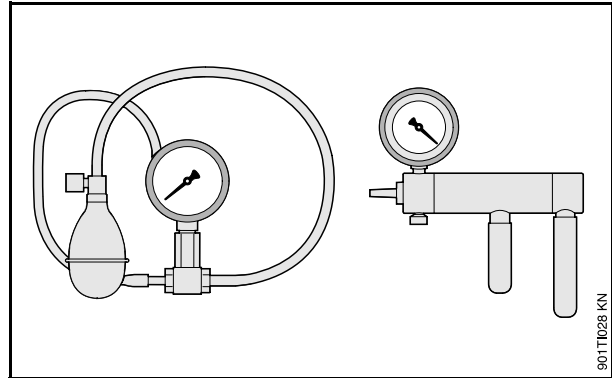

A new STIHL Testing Tool Kit 0000 890 1701 will be made available in the future. The new Testing Tool Kit supersedes the previous Testing Tool Kit 0000 890 1711.

The new kit has been enlarged to include testing tools for the model series currently on the market. Testing tools which are no longer current have been deleted from the new kit.

The crankcase tester 1106 850 2905 and the vacuum pump 0000 850 3501 which were contained in the previous Testing Tool Kit are now replaced by the pump 0000 850 1300 (see section 2).

2. Pump

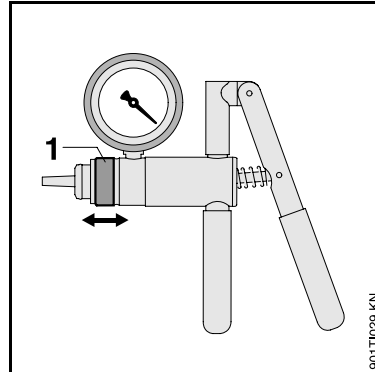

The crankcase tester 1106 850 2905 and the vacuum pump 0000 850 3501 are replaced by the new pump 0000 850 1300.

Left: Crankcase tester 1106 850 2905

Right: Vacuum pump 0000 850 3501

The new pump 0000 850 1300 combines the functions of the previous vacuum pump 0000 850 3501 (vacuum test) and previous crankcase tester 1106 850 2905 (pressure test).

New pump 0000 850 1300

- Pressure test – slide ring (1) to the right
- Vacuum test – slide ring (1) to the left
