The Makinex® Jackhammer Trolley is an innovative demolition tool for the fast and easy removal of floor tiles, vinyl and cork from concrete and wooden surfaces. It can also be used to remove residue from tilebeds and for breaking rocks, blocks, concrete and sandstone.

FEATURES & BENEFITS

- Removes floor tiles, vinyl and cork
- Removes residue from tile beds
- Assists with concrete slab surface preparation
- Quick and easy to assemble – jackhammer clamps into the trolley
- Mechanical angle adjustment to 6 different positions ranging from 20-80 degrees to suit most demolition jobs
- Ergonomic design with built-in shock absorption
- Durable silver zinc plated frame and quality steel components
- 12 Months Warranty

Suitable for 16kg (35lbs) jackhammer models:
Bosch GSH16, Dewalt D25901K-XE, Hilti 1000 & 1500,
Hitachi H65, Makita 1307 & 317, & Milwaukee Kango 900

Jackhammer Trolley
can demolish up
to six times faster
than when using a
jackhammer alone.

No more struggling or bending trying to handle heavy jackhammers! The Makinex Jackhammer Trolley is easy to use; it carries most of the weight of the jackhammer while the user pushes the trolley along. A large footplate enables forward pressure to be applied improving the speed of demolition and tile removal.

The ergonomic design with shock absorption minimises vibration impact on the user and provides safer jackhammer operation by reducing back strain and operator fatigue.

The Makinex Jackhammer Trolley has mechanical angle adjustment to 6 different positions, ranging from 20-80 degrees to suit most demolition jobs. It makes using a jackhammer and demolition jobs easier, faster and safer.
